

## Specification

|                                   |                                    |
|-----------------------------------|------------------------------------|
| Type:                             | Constant Current                   |
| Driver current (Ma):              | 260                                |
| Driver voltage (V):               | -                                  |
| Dimmable:                         | Leading/Trailing Edge              |
| Electrical class:                 | Class 2                            |
| Supply voltage (V):               | 120/277                            |
| Supply frequency (Hz):            | 50/60                              |
| Power factor:                     | 0.9                                |
| Min. Output voltage (V dc):       | 23                                 |
| Max. Output voltage (V dc):       | 46                                 |
| Min. Output power (W):            | -                                  |
| Max. Output power(W):             | 14                                 |
| Inrush current(A):                | <20A Max @ 120VAC, cold start 25°C |
| Ip rating:                        | Damp                               |
| Working temperature (°c):         | -40 - +90                          |
| Connection type:                  | Flying Leads                       |
| Length (mm):                      | 79.8                               |
| Width (mm):                       | 33.8                               |
| Height (mm):                      | 20.3                               |
| Min. Circular aperture (mm/inch): | 48/1 7/8                           |
| Max. LED distance (m):            | <2                                 |
| Manufacturer:                     | Hatch                              |
| Model number:                     | LC12-0260P-120-B                   |

CODE: 6008104

Wire LED products in series.

To calculate product compatibility, visit the driver calculator on each product page on the Astro website.

See the Astro website for installation guides.
